QUEST A · 4 GUILDS · FIRST COME FIRST SERVED

GOLDEN TICKET — Fill the Stands at Doha 2030

Client · OCA — Doha 2030 Ticketing & Fan Engagement Unit

01 SCOUT REPORT · AS OF 2026-09

GOLD STANDARD · HANGZHOU 2023

- 3.05M tickets sold · ¥610M ticket revenue
- 92% attendance; hot sessions >90%
- Market development ¥5.32B total: sponsorship ¥4.42B + licensed merch ¥760M (17 categories, ~1,500 SKUs; mascot "江南忆" = 70% of merch sales)

CAUTIONARY TALE · NAGOYA 2026

- Games ongoing: Sept 19 – Oct 4, 2026; 41 sports
- Plan: 2.75M tickets → only ~605K sold at T-14 days (22%); <30% by late Aug
- Budget ballooned ¥85B → ¥240B; opening-ceremony tickets ¥7,500–60,000
- China visa fee +~5× since Jul 2026; sponsors only Japanese (Toyota, Chubu Electric)
- Structural mismatch: kabaddi / sepak takraw / badminton sold out — football & baseball seats empty

YOUR ARENA · DOHA 2030

- 21st Asian Games, Nov 2030 · 54 sports at 39 venues
- Khalifa Int'l Stadium hosts the Opening; billiards returns after 20 yrs; equestrian archery newly added
- Qatar National Vision 2030: tourism diversification is a national KPI
- Asia is home to the world's youngest, most mobile-first fan base — and Nagoya left most of that continent unmined

Insight: Nagoya's lesson — demand does not appear by itself; it must be manufactured market by market. Hangzhou proved a 92%-full stadium is possible. Doha's edge: visa-free entry, a world-class stopover hub (Qatar Airways / Hamad Int'l), and the Games' own home continent. **Mission: make Asia's away crowd Doha's biggest in Asian Games history.**

02 VICTORY CONDITIONS

400K	≥85%	250K	$40M	500M
tickets sold to Asia-based fans (~15% of total inventory)	avg attendance in sessions featuring Asian teams	Asian visitors arriving in Qatar during Games week	merch + hospitality revenue from Asian fans	social impressions across 6 priority Asian markets

Full-scale targets — your pilot must prove the trajectory toward these numbers.

03 DESIGN CHALLENGE

"How might we make Asia's away crowd Doha's biggest in Asian Games history — by designing a creative campaign that turns continental fandom into packed stands?"

YOUR 5-MINUTE PITCH — THE MVP PLAN

- **1 · THE INSIGHT**
  — the market & audience truth that seeds everything (one line, benchmark-backed).
- **2 · THE IDEA & PLAN**
  (the heart of your pitch) — the pilot campaign concept: 2 Asian markets, 3 months, and how you run & measure it.

SKILLS CHAIN · FROM THE ARSENAL

Insight: Market Research · Audience Analysis · Benchmark Analysis (Hangzhou vs Nagoya)
Create: Creative Concept · MVP Pilot Design · Media Kit
Prove: Pilot Metrics · Data Analysis & Viz

★ **Proposal Showcase — Showcase Report Agent (AUTO)**

Campaign constraint — works in Mandarin, Japanese, Korean, Bahasa, Thai, Vietnamese, Tagalog & English. Miss your sub-metrics → iterate once, or stop.

QUEST B · 4 GUILDS · FIRST COME FIRST SERVED

PANDA GOES GLOBAL — From Zoo Visit to World Membership

Client · Chengdu Research Base of Giant Panda Breeding — Global Brand & IP Division

01 SCOUT REPORT · AS OF 2026-09

THE ASSET · CHENGDU PANDA BASE

- 200+ giant pandas — world's largest conservation & breeding population; ¥55 entry
- Weekday 15–20K visitors/day; summer 30–42K; weekend peaks 45K (capacity ceiling)
- 2024 Spring Festival: 442K visitors in 7 days; May Day 2024: 264K in 3 days — tickets "gone in seconds"
- Superstar pandas: "He Hua 花花" a national icon; "Fu Bao 福宝" returned from Korea Apr 2024, viral worldwide

THE GAP

- Fame is global, monetization is local: no membership program, no global store, no English-first content engine
- International visitors ~5% of total footfall — fans in Jakarta / Riyadh / São Paulo can watch but can't "belong"
- Capacity ceiling: on-site growth is capped; the next frontier must be virtual + licensed

PANDA ECONOMICS

- 487K international visitors in 2025 (Jan 1–Nov 13), +70.7% YoY — Xinhua
- One visit to see 花花 ≈ ¥1,500 of city-wide spend (Qunar estimate)
- Xiang Xiang (Japan): ~¥2.7B economic contribution in <6 years; Fu Bao merch: 2.7M units in Korea, +60%

Insight: The pandas are already Earth's most beloved IP — but the Base captures almost none of that love beyond the ¥55 gate. Japan and Korea proved a single panda can mint billions in merch and tourism. **Mission: turn "the world's most famous zoo" into a global membership brand.**

02 VICTORY CONDITIONS

12%	1M	$28M	10M	$6→15
international visitor share (from ~5%) → 1M+ overseas visitors/yr	members in 12 months, 20% overseas, 30% repeat-visit rate	annual international licensing & merch revenue	followers across TikTok / IG / YouTube	non-ticket on-site spend per visitor (F&B, merch, experiences)

Full-scale targets — your pilot must prove the trajectory toward these numbers.

03 DESIGN CHALLENGE

"How might we turn the world's most famous zoo into a global membership brand — by designing an innovative membership that makes fans everywhere feel they belong?"

YOUR 5-MINUTE PITCH — THE MVP PLAN

- **1 · THE INSIGHT**
  — the market & audience truth that seeds everything (one line, benchmark-backed).
- **2 · THE IDEA & PLAN**
  (the heart of your pitch) — the pilot membership design: 2 overseas markets, 3 months, and how you run & measure it.

SKILLS CHAIN · FROM THE ARSENAL

Insight: Company Profiler (IP audit) · Audience Analysis · Market Research
Create: Creative Concept · MVP Pilot Design · Media Kit
Prove: Pilot Metrics · Data Analysis & Viz

★ **Proposal Showcase — Showcase Report Agent (AUTO)**

Campaign constraint — conservation-first brand values; no over-commercialization backlash. Miss your sub-metrics → iterate once, or stop.
